DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on December 22, 2003 has been entered.

Response to Amendment

Claims 1-15 are pending.

Response to Arguments

Applicant's arguments with respect to claim 14 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

The indicated allowability of claims 1-13 is withdrawn in view of the newly discovered reference(s) to Ikeda et al (US 6,370,175). Rejections based on the newly cited reference(s) follow.

Application/Control Number: 10/015,616

Art Unit: 2828

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 4, 5, 8-10, 13, 14, 15 are rejected under 35 U.S.C. 102(e) as being anticipated by Ikeda et al (US 6,370,175).

Regarding claims 1, 8, 9, 13, 14, 15,

Figure 1 illustrates a driving circuit for laser having a direct current source lb (11) [applicant's first bias current], a modulation current source ls1 (12) [applicant's second bias current] and a modulation current source ls2 (13) [applicant's pulse current]. Figure 2 illustrates the characteristics of the supplied currents to the laser, where current lb is supplied during laser non-emission, current ls1 is supplied prior [applicant's predetermined time] to current ls2 [applicant's delay].

Regarding claim 4,

Figure 1 illustrates a photodiode (101) [applicant's detection means] and a threshold/emission efficiency calculating section (16) [applicant's first bias control means] for controlling current lb.

Regarding claims 5, 10,

Art Unit: 2828

Figure 22 illustrates the circuitry [applicant's differential amplification type circuit]

of the modulation current source or the direct current source.

Allowable Subject Matter

Claims 2, 3, 6, 7, 11, 12 are objected to as being dependent upon a rejected

base claim, but would be allowable if rewritten in independent form including all of the

limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should

be directed to ARMANDO RODRIGUEZ whose telephone number is 571-272-1952. The examiner can

normally be reached on 9:00 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor,

MINSUN HARVEY can be reached on 571-272-1835. The fax phone number for the organization where

this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application

Information Retrieval (PAIR) system. Status information for published applications may be obtained from

either Private PAIR or Public PAIR. Status information for unpublished applications is available through

Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC)

at 866-217-9197 (toll-free).
